

Chaperone Contact Information

It is highly recommended that the visiting group designate several chaperones to rotate shifts and be available in the Ski Brule Main Lodge in the event of an injury of a participant. Ski Brule *does* have a loud speaker system, but its range is limited to the area immediately surrounding the Main Lodge. Cell phone reception is sometimes very limited for some carriers as well, so please keep that in mind. Please let your participants know where they can find their chaperones in the case of an emergency.

Reporting Injuries:

- A radio is located just inside the door of the Main Patrol Center (a green building which is located at the bottom of the Bunny Trail) and is a direct line of communication to Ski Patrol.
- Top of Hill Patrol Center: The Patrol Center at the top of the hill (where the lifts unload) is periodically staffed with patrollers and when it is, injuries can be reported there.
- Notify Ski Brule staff at the Bear's Den Pro Shop, Homestead Lodge, Rental Center, Brule Café, or Lodging Office of the incident. These departments have direct radio contact with the Ski Patrol at all times. When reporting, please indicate the location of the injured person (ex: bottom of Big Bear run, top of North Forty Chair Lift, near Bambi Rope Tow) so a patroller can report to that location as soon as possible.
- Groups that come with two-way radios have found that communication is most efficient and effective by giving one of two radios to the Ski Patrol. Doing so will make locating an injured person's chaperone much quicker.

Please return this form at check-in to assist in good communications between the group and Ski Brule/Ski Patrol.

Chaperone Name	Cell Phone Number	Two-Way Radio (yes or no)	Skiing	Not Skiing
